**VII. REGULAR AGENDA**

7-1 PRESENTATION BY GREG WHITE OF LEARN CHARTER SCHOOL

Mr. White presented statistics and facts about the LEARN Charter Schools which was founded in 2001. He noted 800 students in 2 campuses, waitlist of over 120 students, 85% black or latino, 50% of North Chicago's military students attend LEARN, 30% English language learners comparable to the district, 17% children with disabilities, higher than the D187.

Alderman Allen expressed his extensive support of the LEARN Charter School. New homeowners look at the school system when they purchase homes, and it was important to provide good schools. Alderman Coleman clarified the contract term and noted that at end of contract time there would be

an elected School Board. He asked if the elected Board could assist; Mr. White said it depended on the timing and some of the issues were financial. Alderman Coleman referred to the importance of proficiency in math and LEARN was providing the better programs. He said that the entire district would have charter school education. He said for many years that D187 was under performing.

Alderman Wray questioned how to bring the children back to higher learning. Mr. White explained there needs to be done together, give a rigorous curriculum, reward parents for their participation and make sure the children attend school.

Alderman Jackson asked what was needed financial to come to an agreement. Mr. White said it was only a few thousand dollars. LEARN received money based on the number of children. Part of the issue was decrease in revenue with an increase in cost, which in turn could result in failure due to finances. Alderman Jackson asked if there were a possibility there could be terms with the numbers. Mr. White said that if the children were put first there could be an agreement.

Mr. White questioned why anyone would want to take away the option for better education. It is a parent's greatest hope for a great education. Alderman Evans asked who was preventing them from striving to the next level. Mr. White explained that it was the ultimate decision of the Board. Mayor Rockingham explained that in 2012 it was a state-run School Board; he asked if the military was part of the contract that 50% must be military students. Mr. White clarified that not 50% of the students were military; of the 50% of military students approximately 40% attend LEARN. Only a preference if number drops below 1/3.

Mayor Rockingham said he supports both schools and all the children were significant. He also noted that there are Unions that affect how schools are run, and District 187 is at a disservice because they must follow certain guidelines. He was in hope of a collaboration with ideas to come together and everyone succeed. Mayor Rockingham said that he would supply a letter of support.

Alderman Coleman asked if the information in Mr. White's presentation was given to the Board. Mr. White acknowledged that they had the information, and it was also public with the State Board of Education. There was no detailed conversation of the dramatic difference.

Alderman Brooks was happy that Mr. White came to inform the Council and thanked him. Was in hope for a resolution.
