Each acoustic sensor captures the precise time and audio associated with impulsive sounds that may represent gunfire.

## 2025 SUMMARY & GOALS FOR 2026

*“Teamwork is the secret that makes common people achieve uncommon results,” said Ifeanyi Onuoha. In 2025, the officers and staff of North Chicago proved this true. Their efforts led to:*

- 27% fewer shots fired (183 in 2024 → 134 in 2025)
- 50% fewer aggravated batteries with firearms (16 → 8)
- 72% fewer armed robberies (7 → 2)

*These reductions represent some of the most significant crime decreases in recent years.*

*Looking ahead, we expect to be 90% staffed by July 2026, enabling us to deploy a full-time traffic unit, expand detectives and SOU officers, strengthen our Special Response Team, and make long-overdue promotions. These additions will make us more proactive and better equipped to maintain this downward trend.*

*On the technology front, we plan to launch our Drone as First Responder (DFR) program by summer 2026. This will improve response times, provide real-time video to enhance officer safety, and support search and rescue, fire scene visualization, and Public Works projects.*

*Finally, we are exploring hiring a social worker to offer vital assistance and case management to our residents.*

*I am looking forward to serving with you in 2026 and making it an even more impactful year for our city.*

*Respectfully,*

*Lazaro Perez*

*Chief of Police*
